1.3. Appearance Before Committee:

Any, all or no bidders may be required to appear before the PNC to explain the bidder's understanding and approach to the project and/or respond to questions from the PNC concerning the proposal; or, the PNC may award without conducting negotiations, based on the initial proposal. The PNC reserves the right to request information from bidders as needed. If information is requested, the PNC is not required to request the information of all bidders.

Bidders selected to participate in negotiations may be given an opportunity to submit a revised technical and/or cost proposal/offer to the PNC, subject to a specified cut off time for submittal of revisions. Meetings before the PNC are not subject to the Open Meetings Act. Bidders are prohibited from electronically recording these meetings. All information received prior to the cut off time will be considered part of the bidder's revised offer.

No additional revisions shall be made after the specified cut off time unless requested by the PNC.

1.4. Cost of Preparing Proposal:

The cost of developing and submitting the proposal is entirely the responsibility of the bidder. This includes costs to determine the nature of the engagement, preparation of the proposal, submitting the proposal, negotiating for the contract and other costs associated with this RFP.

1.5. Preparation of Proposal:

Prices are to be entered in spaces provided on the cost proposal form if provided herein. Computations and totals shall be indicated where required. In case of error in computations or totals, the unit price shall govern. The PNC has the right to rely on any prices provided by bidders. The bidder shall be responsible for any mathematical errors. The PNC reserves the right to reject proposals which contain errors.

All copies of cost proposals shall be submitted in a separate sealed envelope or container separate from the technical proposal. The outside shall be identified clearly as "Cost Proposal" or "Technical Proposal" with the Bid Event ID / RFP number and closing date.

A bidder may modify a proposal by letter or by FAX transmission at any time prior to the closing date and time for receipt of proposals.

The Director of Procurement and Contracts reserves the right to waive minor deviations in the specifications which do not hinder the intent of this RFP.

Award shall be made in the best interest of the State as determined by the PNC or their designees. Although no weighted value is assigned, consideration may focus toward but is not limited to:

The usual method of verification is through the Employment Verification (I-9) Form.

With the submission of this bid, the contractor hereby certifies without exception that such contractor has complied with all federal and state laws relating to immigration and reform. Any misrepresentation in this regard or any employment of persons not authorized to work in the United States constitutes a material breach and, at the State's option, may subject the contract to termination for cause and any applicable damages.

Unless provided otherwise herein, all contractors are expected to be able to produce for the State any documentation or other such evidence to verify Contractor's IRCA compliance with any provision, duty, certification or like item under the contract.

Failure to do so may result in contract termination.

3.35. Injunctions:

Should Kansas be prevented or enjoined from proceeding with the acquisition before or after contract execution by reason of any litigation or other reason beyond the control of the State, Contractor shall not be entitled to make or assert claim for damage by reason of said delay.

3.36. Statutes:

3.54. Data:

Any and all data required to be provided at any time during the bid process or contract term shall be made available in a format as requested and/or approved by the State.

3.55 Source Code Escrow Provisions:

A. Assumptions

- 1) Contractor and the State have or will enter into a License Agreement regarding certain proprietary material (usually software but see below) of Contractor.
- 2) The Contractor desires to avoid disclosure of its proprietary material except under certain limited circumstances.
- 3) The availability of the Contractor's proprietary material is critical to the State in the conduct of its business and, therefore, the State needs to guarantee access to the proprietary material.
- 4) Contractor and the State agree to establish a contractual arrangement with a disinterested third party (the "Escrow Agent") to provide for escrow services. The State will prefer to contract with an Escrow Agent that does not have a pre-existing contract with the Contractor for matters other than escrow services.

- 5) The Escrow Agreement shall be supplementary to the licensing of the proprietary software and subcontractor proprietary software as provided by 11 U.S.C. section 365(n) of the U.S. Bankruptcy Code. If the contract between the Contractor and the State, the Escrow Agreement or the license of the proprietary software or subcontractor proprietary software is rejected by the Contractor or Subcontractor as a debtor in possession or a trustee or by any other person or entity under the U.S. Bankruptcy Code, the State may elect to retain its rights as provided in 11 U.S.C. section 365(n). The source code and documentation deposited under this escrow agreement are an “embodiment” of “intellectual property” as those terms are used in 11 U.S.C. section 365(n).

B. Materials

Materials covered under the Escrow Agreement may include, but shall not be limited to: a copy of the source code in machine-readable form for any programs, technical documentation, file layouts, record layouts, flowcharts, coding annotations, and any other information that would help a programmer understand how the system works. The source code escrow must contain all of the materials that would be necessary for a skilled programmer or analyst to maintain the software without the help of any other person or the need to refer to any other materials. Therefore, it is important that the material to be included be exhaustive in its scope and description as it will not be likely it can be augmented should a deficiency become apparent. Further, the names and addresses of the software developers must also be included in the source code escrow.

C. Deposits

Once the Escrow Agreement is signed by the parties, the Contractor will deliver the materials (“Deposit Materials”) to the Escrow Agent for safekeeping.

Before delivery of the materials to the Escrow Agent, the Contractor will label all the Deposit Materials clearly. Additionally, Contractor will list each item that is labeled, describe the type of media and the quantity involved. That list shall be signed by Contractor and delivered to the Escrow Agent and copied to the State.

Contractor shall transfer to the Escrow Agent the title to the media upon which the Deposit Materials are written or stored. However, this transfer shall not include the ownership of the intellectual property recorded on the media or any related copyrights, patents, trademarks or trade secrets.

The Escrow Agent shall have the right to make copies of the Deposit Materials to perform its duties under the Escrow Agreement.

Contractor shall update the Deposit Materials within sixty (60) days of each release of a new version or release of the product subject to the License Agreement. Such updates will be added to the existing deposit(s). All Deposit Materials updated shall be listed, and the list shall be signed by Contractor and provided to the Escrow Agent and the State.

The Escrow Agent shall maintain the Deposit Materials in a secure, environmentally safe, locked facility accessible only to authorized Escrow Agent employees. The facility shall be maintained in such a way as to preclude damage to or deterioration of the Deposit Materials.

The escrow facility chosen shall be reputable and reasonably accessible to the State (i.e., not in a foreign country, and preferably within the mid-western portion of the USA). The escrow facility chosen shall have an established verification process in place to insure the authenticity, continuing maintenance, and accuracy of the Deposit Materials.

D. Release of deposit materials

1. Filing for Release

If the State believes in good faith that a Release Condition has occurred, the State may provide to the Escrow Agent written notice of the occurrence of the Release Condition and a request for the release of the Deposit Materials. On receipt of such notice, the Escrow Agent shall provide a copy of the notice to Contractor by Certified Mail.

2. Contrary Instructions

From the date the Escrow Agent mails to Contractor the State's notice requesting release of the Deposit Materials, Contractor shall have ten (10) business days to deliver to the Escrow Agent contrary instructions ("Contrary Instructions"). Contrary Instructions shall mean the written representation by Contractor that a Release Condition has not occurred or has been cured. Upon receipt of Contrary Instructions, the Escrow Agent shall send a copy of the Contrary Instructions to the State by Certified Mail. Additionally, the Escrow Agent shall continue to store the Deposit Materials without release pending (a) joint instructions from Contractor and the State; (b) resolution of the dispute; or (c) order of a court.

3. Release of Deposit Materials

If the Escrow Agent does not receive Contrary Instructions from the Contractor, the Escrow Agent shall release the Deposit Materials to the State. The Escrow Agreement will terminate upon the release of the Deposit Materials held by the Escrow Agent.

4. Right to Use Following Release

Unless otherwise provided in the License Agreement, upon release of the Deposit Materials in accordance with this "Release of Deposit Materials" section, the State shall have the right to use the Deposit Materials for the sole purpose of continuing the benefits afforded to the State by the License Agreement. To this end, the State shall be deemed to have received with the Deposit Materials a perpetual, non-revocable, non-exclusive, royalty-free license to use all Deposit Materials. The State shall maintain the confidentiality of the released Deposit Materials.

5. Release Conditions shall mean the existence of any one or more of the following circumstances, uncorrected for more than thirty (30) days:

- a) Contractor's failure to carry out support, maintenance or similar obligations imposed on it pursuant to the License Agreement;
- b) Contractor's assignment directly or indirectly (whether by merger, acquisition or otherwise) of support, maintenance or similar obligations imposed on it pursuant to the License Agreement to another company considered by the State, in its sole discretion, to be unsatisfactory;
- c) Entry of an order for relief for Contractor under Title 11 of the U.S. Bankruptcy Code or any similar proceeding initiated under the law of any other country, province, state, or comparable relevant jurisdiction;
- d) The making by Contractor of a general assignment for the benefit of creditors;

- e) The appointment of a general receiver or trustee in bankruptcy of Contractor's business or property;
- f) Action by Contractor under any state insolvency or similar law for the purpose of its bankruptcy, reorganization, dissolution or liquidation; or
- g) Contractor's failure to continue to do business in the ordinary course; or
- h) In the case of a sole proprietor, the death of the Contractor.

Notwithstanding the Release of Deposit Materials procedure set forth above, in no event shall any Release Condition require the prior approval of the Contractor.

3.55. Inspection:

The State reserves the right to reject, on arrival at destination, any items which do not conform with specification of the Contract.

3.56. New Materials, Supplies or Equipment:

Unless otherwise specified, all materials, supplies or equipment offered by the Contractor shall be new, unused in any regard and of most current design. All materials, supplies and equipment shall be first class in all respects. Seconds or flawed items will not be acceptable. All materials, supplies or equipment shall be suitable for their intended purpose and, unless otherwise specified, fully assembled and ready for use on delivery.

3.57. Bidder Contracts:

Bidders must include with their RFP response, a copy of any contracts, agreements, licenses, warranties, etc. that the bidder would propose to incorporate into the any contract generated from this Bid Event. (State of Kansas form DA-146a remains a mandatory requirement in all contracts.)

3.58. Transition Assistance:

In the event of contract termination or expiration, Contractor shall provide all reasonable and necessary assistance to State to allow for a functional transition to another vendor.

3.59. Award:

Award will be by line item or group total, whichever is in the best interest of the State of Kansas.
